NIDA TAHAREEN

Artificial Intelligence and Machine Learning

+91 7892424653 | nidatahareen52@gmail.com | linkedin.com | Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Engineering graduate and AI/ML enthusiast with a strong foundation in Python, Machine Learning, Deep Learning, and data preprocessing, with hands-on experience in model development and evaluation using TensorFlow/Keras. Knowledge on Windows Server, Active Directory, Microsoft Entra ID, Azure, computer networks, virtualization, and cloud fundamentals. Strong problem-solving skills with an interest in developing practical AI/ML and cloud-based solutions.

TECHNICAL SKILLS

- **Technical Areas:** AI & Machine Learning, Deep Learning, Generative AI, Computer Vision, Neural Networks.
- **Programming & Databases:** Python, MySQL.
- **Systems & Networking:** Windows Server, Operating Systems, Computer Networks, Virtualization.
- **Identity & Access Management:** Active Directory, Microsoft Entra ID, Azure, Authentication & Access Management.
- **Data & Systems:** Data Preprocessing, Data Validation, Data Transformation.
- **Tools:** Jupyter Notebook, Eclipse, Android Studio, UiVision.

PROFESSIONAL SKILLS

- Communication Skills
- Problem Solving
- Team Collaboration
- Time Management
- Adaptability

INTERNSHIP EXPERIENCE

MindMatrix – Android App Development Intern

- Gained hands-on experience in Android application development using GenAI tools.
- Developed basic Android application features.
- Improved practical knowledge of application development, debugging, testing and problem solving.

ACADEMIC & TECHNICAL PROJECTS

Plant Leaf Disease Detection

- Developed a deep learning model using TensorFlow/Keras and image processing techniques to detect plant leaf diseases, including data preprocessing and model evaluation to improve detection accuracy

V-Walk — Assistive Navigation App for the Visually Impaired

- Designed and built core application functionality for an accessibility-focused tool, applying structured Python- based problem-solving to real-world end-user needs.

EDUCATION

Bachelor of Engineering — Artificial Intelligence & Machine Learning 2022 – 2026
S J C Institute of Technology | CGPA: 8.82

Pre-University (PUC) 2020 – 2022
Sahyadri PU College | 80%

10th Grade 2020
Presidency High School | 88.8%

CERTIFICATIONS

- Generative AI
- Fundamentals of Machine Learning
- Design Thinking
- Build Your First Chatbot
- GenAI Powered Data Analytics

LANGUAGES

English, Hindi, Kannada
